WORK EXPERIENCE

Recallia (App Startup)

Los Angeles, CA

Co-Founder / Lead UI/UX Designer

May 2025 - Present

- Led product strategy and end-to-end design for an AI-powered memory platform, defining capture, reflection, and engagement experiences from concept to prototype.
- Conducted interviews, journey mapping, and usability testing to identify behavioral patterns and translate findings into product decisions.
- Built scalable design systems and reusable components in Figma to support future expansion across multiple products.
- Designed retention systems including streaks, progression levels, dynamic prompts, and reward mechanics to encourage long-term engagement.
- Collaborated closely with engineering to iterate rapidly and validate new experiences.

Interaction Lab @ USC

Los Angeles, CA

User Research Assistant

May 2025 - Aug 2025

- Contributed to HCI research studying cognitive behavioral therapy patterns within Reddit communities using Python and PRAW.
- Designed research workflows spanning literature review, dataset collection, and behavioral analysis.
- Processed large-scale user-generated datasets to investigate cognitive and emotional signals in online interactions.
- Synthesized findings into insights surrounding human behavior and digital well-being.

Venzor Solutions

Torrance, CA

UX Designer

Mar 2024 - Oct 2024

- Led end-to-end UX/UI redesign, producing high-fidelity prototypes and improving mobile performance and responsiveness by **40%** using front-end optimization techniques (lazy loading, HTML/CSS)
- Analyzed user behavior through Hotjar and Crazy Egg heatmaps to uncover usability issues and guide data-driven interface improvements
